9 August 1983

MEMORANDUM FOR: Director of Communications

25X1 FROM:

Chief, Management and Liaison Staff, OC

SUBJECT: Monthly Report

1. The Management and Liaison Staff was formed and commenced activities on 11 July.

2. On 19-20 July, Chief, MLS visited SAC Headquarters at Offitt Air Force Base in conjunction with a meeting of the National Security Telecommunications Advisory Committee.

3. The new OMB examiner, Mr. Doug Olin, visited OC Headquarters on 22 July for an introduction to the Office and its activities. On 25 July, he departed for Europe to visit EUCA activities, as well as other stops.

4. The FY-85 budget submission for OMB was prepared and forwarded to the DDA and the Comptroller.

5. The DDA Quarterly review was held on 27 July.

6. Chief, MLS presented an OC overview briefing to Mr. Robert Helm of the National Security Council. Mr. Helm is the author of NSDD-97.

7. C/MLS/SINAG attended an NCS principals meeting at which NCS presented legislative and practical aspects of the AT&T divestiture. An increase in local rates was projected but a countervailing lowering of long distance rates was not. Comments were subsequently solicited by NCS on the need for single-company support of key services and a number were found for which exemptions will be sought.

8. OC plans, rationale and status for use of Local Area Network technology in the Headquarters complex were presented to the Information Systems Board. There was general agreement on the need and approach with a request for periodic status reports.

SUBJECT: Monthly Report

25X1 9. As a result of discussions of the problems encountered obtaining and shipping CRAFT expendable items, Chief, DO/IMS/FSG, [redacted] agreed to transfer the entire logistical effort for CRAFT expendables from IMS to the Material Support Section of OC-FND/FEB. The transfer of functions will include the necessary staffing and funding. New streamlined procedures by MSS for this effort should better cope with staging foreign CRAFT installations.
